

SAP Solution Manager – Managed Services

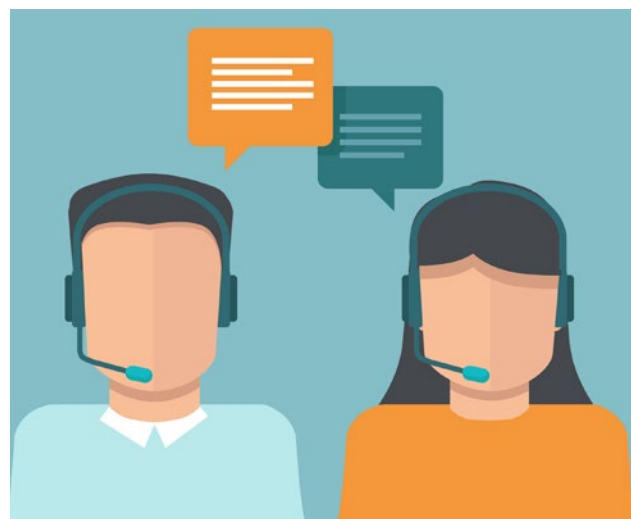

SAP Solution Manager has become indispensable for the daily operation of SAP systems. Its many useful features make everyday life easier for SAP administrators, but its use is not always trouble-free. To correct errors and problems that occur, it requires very specific SOLMAN know-how.

But who has this know-how in your company? In day-to-day business there is usually no time for appropriate training. With our support you can still benefit from the advantages of Solution Manager and ensure trouble-free operation without major effort.

Our experienced SAP Technical Consultants, SAP HANA Consultants and VMware Consultants can advise you on Solution Manager-related topics as part of the “Consulting-in-a-Box” offering. Here you can rely on first-class consulting and cross-system know-how. So you will get an optimized Solution Manager that will fit to your needs. Troubleshooting, problem solving and maintenance are save in our trusted hands.

Your benefit

- » **Practice-oriented:** You receive recommendations you will be able to implement immediately.
- » **Competent:** You benefit from the cross-system know-how of our certified consultants
- » **Calculable:** You receive regular reports on activities including recommendations for optimization
- » **Time-saving:** You relieve your employees, so they have additional time for ongoing projects
- » **First-class:** You receive top advice from experienced consultants.
