

Is Office 365 Suitable for my Company?

Many companies already use Microsoft Office 365 cloud services successfully to solve complex scenarios that could either not be implemented in the local data center at all or only with great effort and high costs. They also benefit from:

- » predictable costs for the IT services they use
- » optimized sales processes and facilitated mobility of the field staff
- » the possibility for employees to work from anywhere

- » closer and better cooperation with partners, customers and suppliers
- » a faster and more efficient communication of your employees
- » a modernized e-mail infrastructure at manageable costs
- » a server environment that is always up-to-date without the need for time-consuming patching
- » the advantages offered by the latest software version

If you want to know what benefits Microsoft Office 365 offers your

company, you should take a closer look at this "Consulting in a Box" offer by AddOn. Learn from an Office 365 consultant about the changes are possible for your users and administrators with the use of Microsoft cloud services. Get clarity about the advantages and disadvantages of Office 365 for your company in an individual workshop and decide on the right cloud strategy.

Your benefit

- » **Investment security** – You know the important facts for your strategic decision.
- » **Transparency** – We explain the opportunities and limitations of Office 365 Cloud Services in relation to your company.
- » **Best practice** – You receive individual recommendations on possible migration and integration paths.
- » **Clear and open** – We present you with alternatives and clarify your questions about implementation.
- » **Individual** – You receive a rough concept suitable for your company with the next planning and project steps.
- » **Return on experience** – You work together with project-experienced strategy consultants.

V3.0

Is Office 365 Suitable for my Company?

Objective

- » Develop understanding for Office 365 and the services it provides
- » Discussion of various scenarios relevant to your company for the selective connection of cloud services
- » Check the local AD infrastructure for suitability for integration with Office 365
- » Creation of an individual rough concept for the implementation
- »

Our services

- » During the workshop a strategy consultant will discuss the following points with you:
- » Functional overview and limitations of the Microsoft Cloud Services Exchange Online, SharePoint Online, Lync Online

- » Requirements for the local environment and analysis of the local infrastructure
- » Identity variants with Single-Sign-On and Same-Sign-On
- » Presentation of possible effects on the local infrastructure
- » Use and benefit of different Office editions
- » Collaboration and data storage options
- » Documentation of the actual situation and creation of a rough concept for implementation
- » Consulting on the selection of licenses: On the basis of the results, the consultant will develop a rough concept that shows a way to implement your scenarios.
