

SAP to Azure Migration – Sizing, Configuration, Migration

The wide-ranging partnership between Microsoft and SAP offers companies the opportunity to run business-critical applications such as SAP and other systems reliably, scalably, and in compliance with guidelines on a proven platform such as Microsoft Azure. This opens up completely new possibilities for the infrastructure. We have developed this “Consulting in a Box” offer for you to ensure that you are successful in using SAP in the Microsoft Azure Cloud. Our experienced consultants support you in running SAP in Microsoft Azure in Dev/test- and production scenarios. Benefit from the scalability, flexibility and cost saving potential of an Azure infrastructure.

Your benefit

- » **Powerful:** More performance for your SAP system landscape
- » **Flexible:** Increased flexibility through Microsoft Azure scalability
- » **Fast:** Short-term availability of extensive resources even for high demands
- » **Know-how:** Profit from the cross-system practical experience of our consultants
- » **Simple:** Simplified administration and optimized utilization of your systems
